

RONIT RAJ

[Portfolio](#) — [LinkedIn](#) — dev.ronitraj@gmail.com — [GitHub](#) — [Kaggle](#) — [LeetCode](#) — [X](#)

Education

Indian Institute of Information Technology and Management, Gwalior

Aug 2023 – May 2027

B.Tech in Mathematics and Scientific Computing — CGPA: 8.35

Gwalior, MP

Experience

GitMesh ([gitmesh.dev](#)) — [GitHub](#)

Jul 2025 – Present

Core Maintainer (Open Source – LF Decentralized Trust Lab)

Remote

- Engineered an OPA policy-as-code layer for a Linux Foundation multi-agent orchestration runtime, scaling adoption to **140+ stars** and enforcing strict governance for autonomous AI tools via MCP.
- Led the Phase Two architecture pivot to an LF-aligned TypeScript monorepo, scaling the project to **20 active contributors** and achieving OpenSSF certification by building an ACP (JSON-RPC 2.0) orchestrator and Postgres audit log.

C3iHub, IIT Kanpur ([PARAM](#))

May 2025 – Aug 2025

Software Engineer Intern

Remote

- Built the backend for a production blockchain credential platform, deploying a Next.js 16/Express 5 monorepo with Privy auth and 5-role RBAC that piloted across **6 departments**.
- Designed a scalable credential issuance pipeline validated by **100+ automated tests**, configuring Redis-backed BullMQ workers for async NFT mints and a 37-model Postgres schema.

Garudex Labs

Nov 2024 – Jun 2025

Backend Engineer

Gwalior, MP

- Constructed a real-time traffic edge system, yielding a co-authored patent and presenting the Best Startup Pitch at AICTE IDE 2025.
- Made the backend for a **15-agent** AI SaaS, implementing latency tracking and resilient retry mechanisms to prevent cascading failures across external LLM API calls.

Projects

PM-JAY Claim Adjudication | *Gemma 3 12B, Python, Pydantic, OpenCV*

Apr 2026

- Developed an automated healthcare claim adjudication framework yielding a **Top 3 Runner-Up** at the NHA-IISc hackathon and 3.4 point clinical F1 gain, integrating dual-cached Gemma 3 12B extraction to cut inference latency by **20%**, alongside keyword fusion and an STG rule module.

ClauseMark | *LangGraph, Qdrant, FastAPI, BGE-M3, Docling*

May 2026

- Implemented a regulatory evidence engine for the **UN Digital Trade Hackathon** achieving zero-hallucination citations across 12 policy pillars, constructing a LangGraph workflow with Qdrant hybrid retrieval and 4-gate verification.
- Secured deterministic citation accuracy across a **15-package hexagonal monorepo** by restricting model outputs to span IDs and orchestrating Human-in-the-Loop (HITL) interrupts via a Postgres checkpointer.

iONIA Platform | *Next.js, Express, FastAPI, MongoDB, OCR*

May 2025

- Launched an adaptive exam platform validated by a beta launch serving **100+ active students**, establishing a Next.js and Express stack with a 3-tier RBAC admin panel and FastAPI OCR service.
- Shipped a high-fidelity NTA-replica interface driving the delivery of a **1,360+ question bank**, orchestrating a MongoDB data layer to handle **50+ concurrent stateful sessions** with sub-100ms latency.

Patent

A Multi-Modal Surveillance System (Pending)

Mar 2025

Indian Application No: 202521020743 — SSR Ref. 402645

Co-Author

- Fused ViT (400M params, 27 layers) + NLP (1.7B params, 28 layers) for real-time traffic analysis; achieved **0.92 mAP@0.5** on BDD100K; edge-deployed with 2-hour battery life on consumer hardware.

Technical Skills

Languages: C++, Python, SQL, TypeScript, JavaScript

AI/ML: PyTorch, Hugging Face Transformers, AI Agents, RAG, LangChain/LangGraph, Fine-tuning (GRPO, LoRA, PEFT), Reinforcement Learning, Vision-Language Models, vLLM

Backend/Infra: FastAPI, Next.js, Node.js, Docker, Kubernetes (CRD/Helm), MCP, AWS, GCP, CI/CD

Databases: PostgreSQL, MongoDB, Redis, Qdrant (Vector DB), Pinecone

Leadership: Open Source Maintainer (LFDT), Community Lead (Enigma Society), Founding Engineer, Conference Speaker (OSS India 2026)

Achievements

- Merged [PR #902](#) to Kagent/Solo.io – CPU/memory config for 10 MCP agents across 13 Helm components in production Kubernetes.
- 9 Hackathon Wins & Podiums** – \$5,000+ in prizes across national and international hackathons.
- Speaker, OSS India 2026** (Linux Foundation, Mumbai) – 40-minute session on security and compliance for AI agents in open source.
- 1st Prize, HackHazards '25 (GeneTrust); Winner, SIH 2024 (SHAKTI); Winner, LNMHacks 8.0 (\$600); 4th Place, Monad Blitz (\$200); 2nd Place, Trillion Dollar GenAI 2025 – LegalEase (\$400).
- Best Startup Pitch, AICTE IDE 2025** (Garudex Labs); Winner, CraftHQ Hackathon (iONIA) – accelerator cohort and angel investor pitch.
- Selected for **Amazon ML Summer School 2025**; started Enigma Society – led 5+ campus events reaching **200+ students**.
